Education

Bachelor of Technology (B.Tech) – Computer Science & Engineering 2023 – 2027
Christ College of Engineering, Kerala
APJ Abdul Kalam Technological University **CGPA: 7.9 / 10**

Skills

Languages: Python, JavaScript, SQL, HTML, CSS
Frameworks: React (Vite), React Native, FastAPI, Flask, Node.js, Express.js
Databases: MySQL, PostgreSQL, MongoDB, SQLite
ML / AI: Scikit-learn, Pandas, Matplotlib, OpenAI API, Hugging Face
Tools: Git, GitHub, GitHub Actions, Vercel, Render, Figma

Industry Internship

Talrop Jan 2025 – Jun 2025
Industry Orientation Trainee (Hybrid)

- Completed structured training in frontend, backend, product engineering, and software development practices.
- Gained exposure to startup ecosystems, software engineering career paths, professional expectations, and the skills required to succeed in the technology industry.

Projects

WeatherScope – Advanced Weather Dashboard May 2026 – Jun 2026
React (Vite), FastAPI, MySQL, OpenWeather API, Leaflet.js

- Developed a full-stack weather dashboard with real-time weather, AQI, UV index, and forecast visualization.
- Built weather history management, city comparison, interactive maps, and PDF report generation.

MedAssist – AI Medical Assistance Platform Jan 2026 – Mar 2026
Node.js, Express.js, MongoDB, JWT, OpenAI API, Python

- Developed an AI-powered medical platform with symptom analysis, health records, and appointment management.
- Secured the application using JWT authentication, bcrypt, Helmet.js, and integrated Python-based ML analytics.

Environmental Monitoring & Alert System Feb 2026 – Apr 2026
Python, Flask, SQLite, WeatherAPI, Chart.js, Leaflet.js

- Built a Flask dashboard for real-time monitoring of weather, AQI, pollution, and UV data.
- Designed a multi-factor environmental risk scoring system with live API integration and cloud deployment.

Achievements & Hackathons

- Smart India Hackathon (2025)** – Team Leader. Led a six-member team to develop Campus360, an AI-powered student portfolio platform. The project was shortlisted through the institute-level internal screening for Smart India Hackathon 2025.
- HackQuest'25 (2025)** – Developed *TeachLink*, a React Native offline-first application with AI-powered lesson planning for rural teachers.
- Q-Bit Hackathon (2026)** – Developed an Environmental Monitoring prototype that evolved into a complete full-stack solution.

Certifications

- Data Science** – NPTEL 2024
- What is Data Science** – IBM 2025
- Tools for Data Science** – IBM 2025
- Data Science Methodology** – IBM 2025
- Python for Data Science, AI & Development** – IBM 2026
- Python Project for Data Science** – IBM 2026
- Databases and SQL for Data Science with Python** – IBM 2026
